

LAT - LEAP Patron Self-Check System

Affordable, expandable self-service solution

A full featured, totally integrated system for easy, friendly and efficient self-service processing of all items in your library. Animation driven, multi-lingual patron interface allows quick user adoption and ease of use. Fully loaded FlashScan™ software provides a wealth of advanced customization features, such as “Custom Error Messaging” and more. An included LAT-Central™ software allows administrative monitoring and reporting capabilities for any number of stations. A variety of options and field installable expansion modules allows this system to grow with your needs, thus preserving your investment well into the future.
